

# Simulanis Solutions Private Limited

After securing funding from ONGC, we strategically allocated resources to establish a specialized team focused on developing our new product line. This proactive investment enabled us to achieve remarkable results, doubling our revenues within the designated timeframe. Furthermore, it has significantly bolstered our credibility in the market, paving the way for expanded opportunities to secure additional capital in the future. We are grateful for ONGC's pivotal support, which continues to fuel our growth trajectory.

## Company Profile:

*Simulanis is a company specializing in XR, Metaverse and Digital Twin. It offers innovative products and services in the areas of immersive learning, training, and simulations. Simulanis caters to diverse industries such as education, healthcare, manufacturing, creating customized AR/VR experiences to enhance training, education, and operational efficiency. Their focus on technology-driven, experiential learning has made them a leader in providing immersive solutions to a wide range of clients and industries. They are offering unique blend of immersive technologies catering to 4 industrial use cases as stated below:*

- 1. Training use case:** Fully immersive training content in a transformative XR environment, revolutionizing learning through XR technologies. Currently have 50+ XR-ready courses validated by industry specialists and SMEs.
- 2. Guiding use case:** Technicians seamlessly collaborate using Simulanis productivity applications, enhancing efficiency and problem-solving in real-time.
- 3. Collaborating use case:** Interact in a shared virtual space, fostering collaboration and engagement within the metaverse.
- 4. Authoring use case:** Author your content or create SOPs in just a few clicks using a No-Code. Easy to deploy across difference devices.
