Working closely with **ONGC** has been a game-changer for us at Syook. Their investment and strategic guidance have enabled us to expand our reach and deliver cutting-edge digital technology solutions to a wider range of industries. ONGC's commitment to innovation and excellence aligns perfectly with our mission to drive digital transformation and value creation for our clients.

Saurabh Sharma

Our partnership with **ONGC** has been a catalyst for innovation and growth. With ONGC's support, we developed the LISA module, a specialized solution tailored for their unique requirements. This collaboration not only brought us revenue but also valuable mentorship from ONGC, guiding us through industry challenges and opportunities. Our participation in events like IEW, made possible with ONGC's backing, has amplified our visibility and credibility in the market. ONGC's strategic guidance and ongoing support have been instrumental in our journey of delivering impactful digital solutions and driving business growth.

Company Profile

Syook enables organizations to build their own IIoT and RTLS solutions to track assets and people in real time.

Over the years Syook has gained proven customer success with ONGC, Indian Railways, Coal India, Unilever, UPL, FIAT, Fortis, Danone, Delhivery and more.

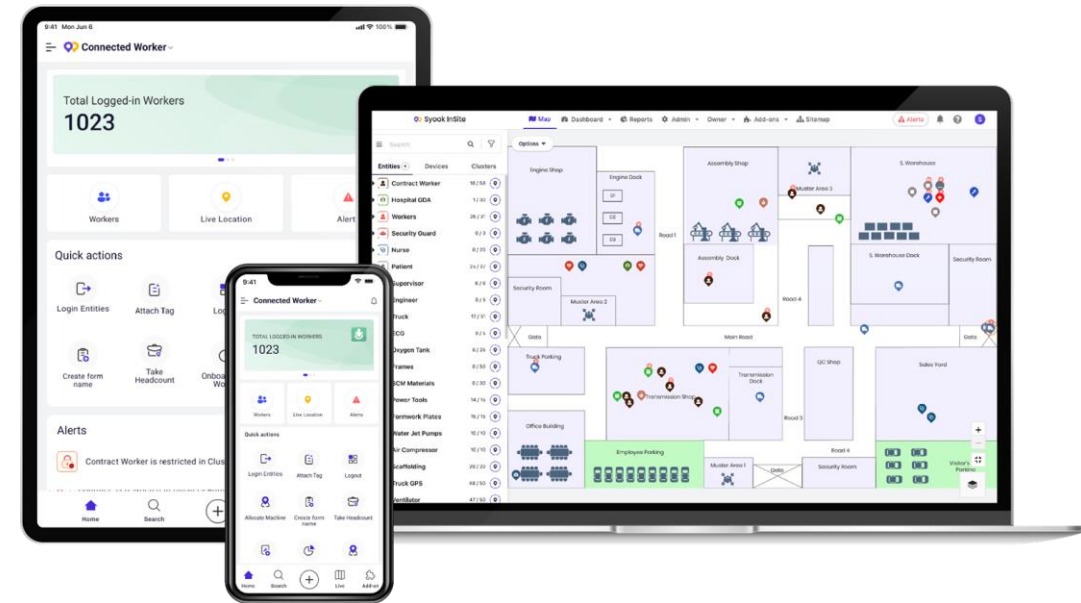

Syook's solution is modular, configurable, no-code, cloud and technology agnostic, quick deployment and has proven customer success.

Syook has been declared Winner of 'Best Asset Tracking Solution Provider of the year 2022' by Supply Tech Breakthrough organization.

Syook's partners include Microsoft, Cisco, SAP, HP, Accenture, Bosch, EY and Honeywell.
